PROFESSIONAL SUMMARY

Senior Android Developer with 6+ years of experience developing and maintaining Android apps using Java and Kotlin. Skilled in MVVM, REST API integration, and Google Play releases. Experienced in security SDK integration, code reviews, mentoring, and coordinating development across Cambodia and South Korea.

TECHNICAL EXPERTISE

Android: Java, Kotlin, Android SDK, and Jetpack Compose

Architecture: MVVM, MVI, Clean Architecture, Coroutines, and Flow

Networking & Security: REST APIs, Retrofit, OkHttp, Android Keystore, and encrypted storage

Google Play Console: App releases, internal testing, beta distribution, and resolving Google Play policy issues

Development Tools & Firebase: Android Studio, Git, GitHub, GitLab, Postman, Firebase, FCM, and Crashlytics

Additional Skills: Figma; SQL, MySQL, and PostgreSQL used in school projects during university and HRD training

PROFESSIONAL EXPERIENCE

Senior Android Developer and Sub Leader, Mobile Department

KOSIGN (Korea Software Innovation Global Network) | Mar 2020 to Present | Phnom Penh, Cambodia

- Develop and maintain Android apps using Java and Kotlin, delivering features, updates, and fixes.
- Coordinate feature requests, app updates, and issue resolution, assigning development tasks across the team.
- Mentor junior developers through code reviews, technical guidance, debugging, and troubleshooting.
- Develop Android app interfaces with Jetpack Compose for apps released to users.
- Integrate RaonSecure SDKs such as TouchEn mTranskey, mVaccine, and AppIron into fintech apps.
- Manage Google Play submissions, policy compliance checks, and release coordination, publishing approved apps and communicating review outcomes.
- Introduced DiffUtil for adapter updates and led adoption of Android App Bundles (AAB).

International Assignment | Bizplay (비즈플레이)

Oct 2022 to Aug 2023 | Busan, South Korea

- Worked with teams in Cambodia and South Korea to clarify requirements and define development tasks.
- Coordinated app development, fixes, and updates; tested apps and managed releases.

Web Developer | PLAN-B Cambodia (BEONE)

Nov 2018 to Jan 2019 | Phnom Penh, Cambodia

- Built responsive web pages and backend features using PHP.
